

microman[®] E

Ergonomic pipetting For Problem Liquids!

NEW

Larger action button

Improved ergonomic design:

Visible volumeter on front of the body

Volume control button sets volume and prevents accidental changes

Ergonomic Comfortable finger hook

Patented QuickSnap feature automatically fixes disposable Capillary Pistons (CP), thus eliminating the need to fit the CP to the pipette before each use and minimizing possible errors due to additional pipetting moves

The MICROMAN[®] E delivers the highest performance to lab technicians who need to pipette problem liquids!

As easy and comfortable as a regular pipette.

Quicksnap a unique patented feature making the fit of the disposable capillary piston on Microman E as easy as tip fitting on a regular pipette.
