

*For researchers in
the life sciences*

Innovative Laboratory Instruments

Reliable, top quality, budget friendly

Key Benefits

- **Better Results.** Using innovative technologies to automate mundane tasks allows you to achieve better results while you save time and effort.
- **Top Quality.** Our well-crafted instruments are manufactured in the USA by skilled engineers who take pride in every product that comes out of our factory.
- **Superior Design.** Driven by the needs and desires of researchers, our products are designed with special features to make your tasks easier and to increase your productivity.
- **Best Value.** We are committed to keeping our instruments affordable while delivering top-quality performance.

The **Bullet Blender BBX24** can homogenize up to 24 samples in parallel. The **Infinity Rocker** is available with up to four platform levels for increased capacity.

**All Next Advance products are made in the USA
and come with a 30-day money-back guarantee.**

BULLET BLENDER®

HIGH THROUGHPUT HOMOGENIZER

- High yield
- Powerful, consistent processing
- Keeps samples at 4°C

FREEDOM ROCKER™ BLOTBOT®

AUTOMATED BLOT PROCESSOR

- Stop babysitting your Westerns
- Consistent
- Use just 3.5 mL antibody solution and recover

CELVIN®

CHEMILUMINESCENCE IMAGING SYSTEM

- High sensitivity
- Easy to use
- Compact and affordable

INFINITY ROCKER™

LONG LIFE PLATFORM ROCKER

- 4 year warranty
- Custom programmable run, tilt and pause
- Multi-level configurations

QUIETEK™

CO₂ INDUCTION SYSTEM

- Humane
- Consistent one-touch operation
- Ensures compliance

PRESSURE INJECTION CELL

LC/MS CAPILLARY LOADER

- Save money - pack your own columns
- Get better results
- Customize your columns
